Subject: Nortel: Second Meeting with Ontario Ministry of Consumer Services

I just spoke to Pina Bosco, in Ontario Consumer Services Deputy Minister George Ross's office. The Ministry would like to schedule a second meeting with our group in the week of July 11th to 15th. **Please check your calendars and advise me of days and times that are not available for you to participate.** If you have preferred days and times let me know.

The meeting will likely be in the same place with the same teleconference arrangements.

I will figure out the mutually agreeable time and then confirm it with the Ministry.

Pina said there would likely be the same meeting participants as last time. I made a special request for Deputy Minister George Ross to attend given the importance of this file to the disabled and the jurisdiction available for his Ministry under the Ontario Consumer Protection Act to begin the investigation. All we need is an internal policy change, which will be George Ross's decision to make, combined with the political will from all the Ministers and MPPs we are talking to.

Diane
